PRESENTATIONS

Vice Chairman Burgett congratulated Mrs. Anne B. Smith, Director of Community Services, on 25 years of service with the County, and Mr. Thomas W. Sawyer, Department of Financial and Management Services, on 20 years of service. Mr. Burgett then presented them with their service pins and certificates.

CITIZENS COMMENT PERIOD

Mr. Joseph K. Taylor, 109 Marlbank Drive, spoke of the problem with motorists running red lights on Route 17. He noted that some cities have permission to put cameras at the intersections, but the General Assembly will not give York County that permission. He suggested that the Board have dummy cameras mounted at the intersections, and put up signs at the entrance to the County stating there is monitoring equipment throughout the County. On a more long range and comprehensive approach, Mr. Taylor asked the Board to consider an advisory referendum to canvass the people of the county to determine their interest in having cameras at the intersections. He noted it could strengthen the County's case before the General Assembly if the survey was positive. Mr. Taylor also noted the County needs to enlist the support and cooperation of other jurisdictions interested in the same idea.

COUNTY ATTORNEY REPORTS AND REQUESTS

Mrs. Hook indicated she had no report to make at this time.

COUNTY ADMINISTRATOR REPORTS AND REQUESTS

Mr. McReynolds reminded the Board members of their upcoming work session on August 10 and their next regular meeting on August 17.

MATTERS PRESENTED BY THE BOARD

Mrs. Noll addressed the photo red issue brought up by Mr. Taylor, stating it is something the Board has been fighting to have in the County for a long time. She noted it goes before the Courts and Militia Committee of the General Assembly, and they reject it year after year. She suggested that citizens who are interested in having this capability should contact their legislative delegation in support of the photo red bill. Mrs. Noll then noted that Mr. Bowman was not present this evening, and she stated the Board joined her in expressing sympathy to Mr. Bowman and his family on the passing of his step-father. She indicated she had attended the Chamber of Commerce meeting and heard that the General Assembly has passed a bill to allow newcomer military personnel to the state to pay in-state tuition for community colleges for one year. She noted that on October 11 and 12 the Virginia Marine Resources Commission will be holding two hearings at Lafayette High School regarding the reservoir, specifically to address permitting for the in-take valve. Mrs. Noll then apprised the Board of her attendance at the NACo Conference in Phoenix, stating it was attended by over 5,000 people, and she received a lot of information on affordable housing. She spoke of opportunities for affordable housing in the Hampton Roads area, and suggested interested persons contact Community Services or a bank or mortgage person to find out the qualifications. Mrs. Noll noted that VTRANS2005 will be held August 11 from 4:00 to 8:00 p.m. at Thomas Nelson Community College, and it is a chance for the public to have their ideas heard on transportation issues. Mrs. Noll noted she also attended the VACo local government officials conference in Norfolk this past weekend, and stated the state is looking at more ways of paying for the roads rather than out of the general fund. She stated the federal government has not yet passed its transportation plan, so not much can be done until it is known what they will provide to the states.

Mr. Zaremba stated the Board has often hounded VDOT to install traffic lights at intersections after the County concludes there are too many accidents. After a number of years, VDOT recognized the need for one at Mooretown and Airport Road and finally put in a major traffic configuration at the intersection. He stated there are still accidents, and he agreed that there is a need for the photo red system at these intersections. Mr. Zaremba then provided an update on the newly created Williamsburg Destination Committee which will determine how to spend revenues with respect to the additional \$2.00 per night surcharge to lodging charges. He noted an inaugural polo match sponsored by the Williamsburg Kiwanis will happen at Shirley Plantation on October 10 which will generate funds for youth programs of the Historic Triangle. Mr. Zaremba then asked that the Board receive a critique from the legislative session at the next meeting as well as an update on the proposed meeting between the Board and the legislators.

Mr. Burgett noted he had the opportunity to attend the Mayors and Chairs Caucus, and the main topic of discussion was communications during emergencies. Representatives from television stations and radio stations were present, and the objective was to get the media to provide a dedicated time to each locality to provide its citizens with emergency information on the locality. Mr. Burgett also noted he attended the Peninsula Mayors and Chairs meeting and received an update on the 2007 Celebration. He stated Colin Campbell was present and gave an outstanding presentation on what was happening during the planning stages. He noted another topic discussed was the proposed merger of the economic alliances of the Peninsula and the Southside. He stated Mayor Frank of Newport News is of the opinion that the elected officials did not get enough input on the subject, and he has brought it back up. Speakers were present from both sides, and nothing substantially different was brought up. He stated the York County Board of Supervisors' position is not to disband the Peninsula Alliance, although it would not be against being a part of a regional alliance. He stated there will be more meetings with all the Boards and Councils to hear what the proponents of the merger have to say. Mr. Burgett then stated he had an address for the letter he had asked the Chairman to sign regarding the Navy training flights that are taking place in the late evening hours over York County. He stated they are flying over people's homes at late hours, and the Board has agreed to ask the Navy to reconsider its timetable for the practice flights. He also asked Mr. McReynolds to provide a Route 17 update at the Board's next meeting. He spoke about the abandoned Exxon station at Lakeside Drive, noting he had made contact with corporate headquarters and spoke with the person who oversees the project. He stated the gentleman was

totally unresponsive, indicating Exxon is not interested in its decaying building in the York community. He expressed his disappointment that Exxon did not display some corporate pride and citizenship and take care of removing the building. Mr. Burgett then announced that the County is losing Steve Hicks as its Resident Engineer which is a significant loss. He expressed his hope that his replacement will do as well, and stated that James City County is very fortunate to get him.

Meeting Recessed. At 7:51 p.m. Vice Chairman Burgett declared a short recess.

Meeting Reconvened. At 8:00 p.m. the meeting was reconvened in open session by order of the Chair.

CONSENT CALENDAR

Mrs. Noll asked what equipment was being purchased with the Homeland Security grant.

Fire Chief Stephen P. Kopczynski stated the funds are provided to localities across the country to make sure localities are prepared in the event of terrorism. An assessment of the localities' capabilities was done, and items were identified that staff would otherwise need to come to the Board to request from the general fund. He stated it is a flow-thru grant that includes equipment for the regional rescue team as well as the unified command post. He stated there are a number of item requirements identified by the federal government that the County must adhere to. Through earlier parts of the program, the County was able to equip its personnel and that of the Sheriff with chemical protective clothing. Chief Kopczynski stated staff expects to procure technical rescue gear and a pickup truck and trailer to carry the equipment, as well as interoperable communications equipment for the command post.

Mr. Zaremba suggested that instead of giving the Board a short summary in the agenda package, staff provide the Board with an enclosure of what was submitted for the grant. He then noted that when equipment from a grant like this is purchased, the grant ends, but the vehicles purchased require maintenance that continues after the grant funds are spent, so there is another cost associated. He stated he would like to know what are the recurring costs. Mr. Zaremba then noted Chief Kopczynski had mentioned buying communications equipment so that there will be interoperability with other fire departments. He stated the County is in the process of spending \$10 million to achieve interoperability, and he asked Chief Kopczynski and Sheriff Diggs to give the Board a feel for what is going on with the Homeland Security Grant and the funds for the Hampton Roads Metropolitan Medical Response System.

Chief Kopczynski stated that with regard to interoperability, there are eight specific categories that have to be identified according to the grant regulations. Within each grant process, the categories may change. In this case it addresses everything from radios to satellite telephones and computer systems.

Mr. Burgett questioned the need for other equipment when the County is jointly purchasing a \$10 million communications system. He stated \$10 million should allow the jurisdictions to communicate with everyone.

Chief Kopczynski explained that the funds were not just being used for communications equipment. For example, he noted the Sheriff will purchase a bus with these funds for the command setup.

Mr. McReynolds assured the Board of Supervisors that the Sheriff has worked very closely with county staff to make sure the funds are being spent wisely and the equipment is compatible with our new communications system. He stated there are no duplicates or inefficiencies.

Mr. Zaremba then noted he had the same types of questions for the funds for the medical response system.

Chief Kopczynski stated none of the equipment purchased with these funds will be housed in York County. The County serves as the region's fiscal agent and just manages the procurement for the system and has oversight for the program.

Mr. Zaremba asked if the equipment is used solely for hospitals.

Chief Kopczynski indicated it will be used by hospitals and health departments within the Hampton Roads region.

Mr. Zaremba asked if the equipment will also be compatible with the regional communications system.

Chief Kopczynski stated public health radios will be procured so that the health departments can communicate with their local governments. He stated they will also be able to speak to the localities on the regional system. He stated the jurisdictions are trying to establish capabilities to improve, but it will not put everyone on the same communication platform.

Mr. Zaremba then moved that the Consent Calendar be approved as submitted, Item Nos. 7, 8, and 9, respectively.
